Minutes:

1. Introduction.

1.1. Jan Putnis opened the meeting and delivered a brief introduction.

2. Administration:

a. a short presentation on key FMLC statistics (Venessa Parekh);¹

2.1. Venessa Parekh presented a selection of FMLC statistics covering the legal uncertainties analysed by the FMLC since 2003, FMLC publications, FMLC events, the international connections the FMLC have forged, and a glance at funding and expenditure.

b. present the draft 2018 Forward Schedule;²

2.2. The draft 2018 Forward Schedule was presented to the Forum members.

2.3. These dates will be recirculated for comment and confirmed at the Q4 meeting on Thursday 14 December.³

2.4. The Secretariat invited members to suggest items for the 2018 Forward Agenda.

3. The Prudential Regulation Authority (“PRA”) consultation paper on the minimum requirement for own funds and eligible liabilities (“MREL”) – buffers.

3.1. Although no significant issues of legal uncertainty were identified, owing to the consultation paper’s proposing mainly technical amendments, one participant raised the question of how MREL would operate in conjunction with the proposals made by HM Government by means of the European Union (Withdrawal) Bill.

4. The recent report published by the Basel Committee on the implementation of Basel Standards.

4.1. The Forum members considered the report published by the Basel Committee on the implementation of Basel standards; they did not, however, identify any issues of legal uncertainty and decided that this topic did not need to be discussed further.

5. Resolution planning guidance for global banks and reports on the implementation of resolution by the Financial Stability Board ("FSB")

5.1. One Forum member queried whether there should be more consistent practices under the resolution regime. For instance, the participant highlighted that there could be inconsistencies concerning the extent to which discretion can be lawfully applied when analysing the qualitative triggers in a firm's consideration of whether a recovery response is necessary.

5.2. Another Forum member asked if transfers of accounts would be recognised in English Law should no post-Brexit deal be reached. One participant suggested that the concept of partial universal succession could be applied in this instance to facilitate the transfer of assets without third-party consent.

5.3. The attendees agreed that cross-border recognition with Brexit would be a significant area for the FMLC's Brexit – BRRD and CIWUD Working Group to consider.

6. Any other business.

6.1. One member addressed the proposed new moratorium tools in the Risk Reduction Measures package. They highlighted that there could be legal uncertainty where the proposal would provide supervisory authorities with a power to suspend payment and delivery obligations for a maximum of five business days, prior to resolution, compared to the existing two day resolution moratorium.

6.2. An issue with MiFID II’s conditions concerning clients’ payments for research was also brought to the group’s attention. Under these conditions, an investment firm will need to set up a research payment account funded by specific research charges billed to the firm’s clients. One participant emphasised that this condition could be impossible to comply with the Regulation (EU) No 1286/2014 of the European Parliament and of the Council of 26 November 2014 on key information documents for packaged retail and insurance-based investment products ("PRIIPs"). This, however, was identified as a conflict issue rather than an issue of legal uncertainty.
6.3. Another participant raised the topic of ring-fencing legislation in regards to which several legal complexities are well recognized. It was highlighted that the legal uncertainties would endure even on transposition of this legislation by means of the European Union (Withdrawal) Bill. It was resolved that Mr Putnis would send more details on this topic to be discussed further at the December Forum meeting.

6.4. The last topic considered was the change in control regime, which stipulates that dual regulated firms such as banks that are endeavouring to acquire control in a firm must seek its approval from the PRA first. Primary issues of when to apply for approval and how certain acquisition structures are treated were identified by the group. Mr Putnis volunteered to prepare some related points for discussion at the December meeting.
